

ACC Watersorb for Water Purification

WHY ACC

- ü ACC offers products from the **top-class** activated carbon manufacturers.
- ü ACC ensures a **one-stop service** for varies demands from customers.
- ü **Double quality guarantee** from both manufacturer side and ACC side after production and before delivery.
- ü Approved by many authorized institutions from different fields such as **NSF, BV, HALA, Kosher**.etc.

This series of carbon is specially produced by coconut shell or bamboo, which is widely used for advanced treatment of upstream water and deodorizing industrial waste gas, solvent recovery and industrial gas refinement.

Features & Benefits

- I High adsorption capacity
- I Good Hardness
- I Advanced pore structure
