

WHY ACC

- ✓ ACC offers products from the **top-class** activated carbon manufacturers.
- ✓ ACC ensures a **one-stop service** for various demands from customers.
- ✓ **Double quality guarantee** from both manufacturer side and ACC side after production and before delivery.
Approved by many authorized institutions from different fields such as **NSF, BV, HALA, Kosher**.etc.

ACC GP 48 G

This series of product is a granular activated carbon which is specifically designed for odor and VOC removal in vapor applications. It is made from selected grades of coconut shell that impart a hardness that is necessary for the long life expected in many applications. It is produced under rigidly controlled conditions by high temperature steam activation.

This product is featured by high surface area, fine pore structure, high density and high volume activity.

Package: Packed in 500kg jumbo bag. Other packaging is available upon your request.

Standards: All the above test methods are performed using ASTM protocol for activated carbon.

SPECIFICATIONS

GP 48G

Ash content	3% max
Moisture (as packaged)	5% max
Apparent Density	0.45g/cc min
Hardness Number	97% min
Carbon Tetra chloride	60% min
Particle Size	4x8
4 US Mesh (4.75mm)	5% max
< 8 US Mesh (2.36mm)	5% max
