

WHY ACC

- ✓ ACC offers products from the **top-class** activated carbon manufacturers.
- ✓ ACC ensures a **one-stop service** for varies demands from customers.
- ✓ **Double quality guarantee** from both manufacturer side and ACC side after production and before delivery.
- ✓ Approved by many authorized institutions from different fields such as **NSF, BV, HALA, Kosher**.etc.

Package: Packed in 500kg jumbo bag. Other packaging is available upon your request.

Standards: All the above test methods are performed using ASTM protocol for activated carbon.

ACC GP 410 G-21

This product is a vapor phase reactivated carbon designed for the removal of organic contaminants from industrial and remediation air stream applications.

The carbon is manufactured by the reactivation of previously used carbons to produce a high-density, high surface area, durable reactivated product.

It is effective in a wide range of vapor applications, providing reliable removal of volatile organic and odorous compounds.

SPECIFICATIONS

GP 410G-21

Butane activity	21.4% min
Moisture (as packaged)	2% max
Particle Size	4*10
< 10 US Mesh (2.00mm)	5% max
