

### WHY ACC

- ✓ ACC offers products from the **top-class** activated carbon manufacturers.
- ✓ ACC ensures a **one-stop service** for various demands from customers.
- ✓ **Double quality guarantee** from both manufacturer side and ACC side after production and before delivery.  
Approved by many authorized institutions from different fields such as **NSF, BV, HALA, Kosher**.etc.

### ACC GP 1230/616 G

This series of product is an impregnated granular activated carbon specifically designed for filtration equipment for use in Israel air raid shelters.

This product is applied to provide clean air and protection against both dimethyl methylphosphonate (DMMP) and cyanogen chloride (CK).

**Package:** Packed in 500kg jumbo bag. Other packaging is available upon your request.

**Standards:** All the above test methods are performed using ASTM protocol for activated carbon.

SPECIFICATIONS		
Item No.	GP 1230 G	GP 616 G
Hardness Number	85% min	85% min
Apparent Density	0.45-0.65 g/cc min	0.45-0.65 g/cc min
Particle Size	12x30	6x16
Surface area	900 m2/g min	900 m2/g min
Moisture (as packaged)	5% min	5% min
