- Approved by many authorized institutions from different fields such as **NSF, BV, HALA, Kosher**.etc.

ACC WS 820 i900 G is a granular activated carbon developed for the removal of dissolved organic compounds from water and wastewater as well as industrial and food processing streams.

This product is manufactured from select grades of bituminous coal through a process known as reagglomeration to produce a durable granular product capable of withstanding the abrasion associated with repeated backwashing, air scouring, hydraulic transport, and reactivation for reuse.

Package: Packed in 500kg jumbo bag. Other packaging is available upon your request.

Standards: All the above test methods are performed using ASTM protocol for activated carbon.
