

ACC CS 325 i700 G

WHY ACC

- ✓ ACC offers products from the **top-class** activated carbon manufacturers.
- ✓ ACC ensures a **one-stop service** for various demands from customers.
- ✓ **Double quality guarantee** from both manufacturer side and ACC side after production and before delivery.
Approved by many authorized institutions from different fields such as **NSF, BV, HALA, Kosher**.etc.

ACC CS 325 i700G can be well-performed for color removal and purification in various food and beverage applications such as alcoholic spirits, fruit juices, wine and other food production processes.

It is a liquid phase powdered activated carbon which is specifically designed for decolorization in food and beverage process applications and pharmaceutical product purification.

This acid-activated, wood-based product was developed to effectively adsorb high and low molecular weight organic impurities.

SPECIFICATIONS

CS 325 i700 G

Moisture number	700 mg/g min
Moisture (as packaged)	10% max
Ash Content	6% max
<200 US Mesh (0.075mm)	90% min
< 325 US mesh (0.045mm)	60%(min)--85%(max)

Package: Packed in 500kg jumbo bag. Other packaging is available upon your request.

Standards: All the above test methods are performed using ASTM protocol for activated carbon.
