

ACC CS 1240 AW G-210

WHY ACC

- ✓ ACC offers products from the **top-class** activated carbon manufacturers.
- ✓ ACC ensures a **one-stop service** for various demands from customers.
- ✓ **Double quality guarantee** from both manufacturer side and ACC side after production and before delivery.
Approved by many authorized institutions from different fields such as **NSF, BV, HALA, Kosher**.etc.

It is an acid-washed granular activated carbon with a low acid soluble iron content which is designed for the purification and decolorization of many aqueous and organic liquids. It can be used efficiently in either fixed or moving beds.

This product is made from select grades of bituminous coal combined with suitable binders to give superior hardness and long life. Featured by high surface area, large pore volume, high density and a pore structure optimal for the adsorption of color bodies and odor molecules from solution.

Package: Packed in 500kg jumbo bag. Other packaging is available upon your request.

Standards: All the above test methods are performed using ASTM protocol for activated carbon.

SPECIFICATIONS

CS 1240 AW G-210

Mean Particle Diameter	1.2-1.4 mm
Molasses Number	210 min
Moisture (as packaged)	3% max
Abrasion Number	78% max
PH (Extractable)	5.0-8.0
Acid Soluble Iron	0.01% max
Acid Soluble Ash	0.5% max
10 US Mesh (2.00mm)	5% max
< 40 US mesh (0.425mm)	0.5% max
