

## ACC WAC PS Series

### WHY ACC

- ✓ ACC offers products from the **top-class** activated carbon manufacturers.
- ✓ ACC ensures a **one-stop service** for varies demands from customers.
- ✓ **Double quality guarantee** from both manufacturer side and ACC side after production and before delivery.
- ✓ Approved by many authorized institutions from different fields such as **NSF, BV, HALA, Kosher**.etc.

This product is especially designed for high-purity production and those with special requirement on filtration. It can be adjusted base on different technical request, such as filtration rate, particle size range, and manufacturing technique for the raw materials. This series is made through physical method of steam activation.

### Features

- High Adsorption Capacity
- Low iron content
- Low chloride content

### SPECIFICATIONS

#### WAC PS C

Particle Size	200 mesh pass 90%
Iodine Number	850-1100mg/g
Syup Rate	2.5; 3.0
Iron Content	0.05% max
Chloride Content	0.05% max
Ash Content	3-12% (as per request)
Moisture Content	5-10% (as per request)
PH	8-11

**Package:** Packed in 500kg jumbo bag.  
Other packaging is available upon your request.

**Standards:** All the above test methods are performed using ASTM protocol for activated carbon.
