

## ACC WS CAC i1200

### WHY ACC

- ✓ ACC offers products from the **top-class** activated carbon manufacturers.
  - ✓ ACC ensures a **one-stop service** for various demands from customers.
  - ✓ **Double quality guarantee** from both manufacturer side and ACC side after production and before delivery.
- Approved by many authorized institutions from different fields such as **NSF, BV, HALA, Kosher**.etc.

This product is a high activity coconut carbon for the removal of dissolved organic contaminants from water and process liquids. These contaminants include taste and odor compounds, organic color, total organic carbon (TOC) and industrial chemicals such as chlorinated solvents (TCE, PCE). The pore structure enables it to be used for adsorption of both high and low molecule weight impurities from waters and liquids.

It can be used in a variety of water and process applications for the removal of dissolved organic compounds.

**Package:** Packed in 500kg bags or 25kg bags. Other packaging is available upon your request.

**Standards:** All the above test methods are performed using ASTM protocol for activated carbon.
