

ACC WS DSR i800 G

WHY ACC

- ✓ ACC offers products from the **top-class** activated carbon manufacturers.
 - ✓ ACC ensures a **one-stop service** for various demands from customers.
 - ✓ **Double quality guarantee** from both manufacturer side and ACC side after production and before delivery.
- Approved by many authorized institutions from different fields such as **NSF, BV, HALA, Kosher**.etc.

This product is designed for the removal of organic contaminants from industrial wastewater, process water, groundwater remediation and other non potable waters. The carbon is manufactured by the reactivation of previously used granular activated carbon to produce a high density, high surface area and durable product capable of withstanding repeated cycles of use and reactivation.

Package: Packed in big jumbo bags or 25kg bags. Other packaging is available upon your request.

Standards: All the above test methods are performed using ASTM protocol for activated carbon.

SPECIFICATIONS	
WS DSR i800 G	
Iodine Number, mg/g	800 min
Moisture (as packaged), wt%	2 max
Density (Apparent), g/cc	0.60 max
< 30 US Mesh (PAN), wt%	5 max
< 40 US Mesh (PAN), wt%	—
Modified Contact PH	—
