

ACC WS OLC Series

WHY ACC

- ✓ ACC offers products from the **top-class** activated carbon manufacturers.
- ✓ ACC ensures a **one-stop service** for various demands from customers.
- ✓ **Double quality guarantee** from both manufacturer side and ACC side after production and before delivery.
Approved by many authorized institutions from different fields such as **NSF, BV, HALA, Kosher**.etc.

This product is a coconut activated carbon for the removal of dissolved organic contaminants from water and process liquids.

These contaminants include taste and odor compounds, organic color, total organic carbon (TOC) and industrial chemicals such as chlorinated solvents (TCE, PCE). The pore structure enables it to be used for adsorption of both high and low molecular weight impurities from waters and liquids.

It can be used in a variety of water, wastewater and process liquid applications for the removal of dissolved organic compounds. It has been used in applications such as process water purification, wastewater treatment and industrial chemical purification.

Package: Packed in big jumbo bags or 25kg bags. Other packaging is available upon your request.

Standards: All the above test methods are performed using ASTM protocol for activated carbon.

SPECIFICATIONS	
OLC i900 G	
Iodine Number, mg/g	900 min
Ash, wt%	5 max
Moisture (As packaged), wt%	5 max
12 US Mesh (1.70mm), wt%	5 max
< 30 US Mesh (0.600mm) (PAN), wt%	5 max
